## DETAILED ACTION

### *Election/Restrictions*

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-9, 14-17, drawn to compounds, compositions, method of using the compounds and process of making the compounds.

Group II, claim(s) 10, 12, drawn to a group of intermediates.

Group III, claim(s) 11, 13, drawn to another group of intermediates.

2. The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the final products can be made by other method not involving the intermediates of groups II-III.

The Abstract should be on a separate sheet of paper.

There are 17 claims in the original file. However, in the preliminary amendment there are 16 claims in one part and 15 claims in another part. **Clarification is required.**

3. A telephone call was made to Mr. Kim on August 18, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 1625

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
